

How to make calls to contacts

- 1. If not home**
 - A. Give context for call, “Hey this is (name), from church (name/if wished), we meet at such and such a place.”**
 - B. Then give reason for call, “just calling to see what time would be good to follow up with our Bible study.”**
 - C. In calling try to insert your number at least 3 times. Be personal, warm and polite.**
- 2. If they are at home, just insert the above in the conversation, if it is called for. And let the person know it will only be an hour. Choose a public location if alone with them. For their comfort and for prudence sake.**
